Maloney Tapered Tungsten-Filled Esophageal Bougie

Description:

This tungsten-filled bougie provides a single style of dilator for treating cardiospasm, esophagitis, stenosis and other esophageal diseases. The small, flexible tip is easily introduced through the cricopharynx area, cardioesophageal junction or stenosis. Once the tip is through the involved area, the tapered end allows the single bougie to dilate this portion of the esophagus to its maximum limit.
Overall length is approximately 29-1/2" (75 cm). 60 Fr.
