

Ligation Systems

Products listed contain no natural rubber latex.

In 1963, Weck redefined the closure market with the introduction of the Hemoclip® Traditional Metal Ligating Clip. Over the last fifty years, the Weck Brand has continued to refine the science of closure to produce a comprehensive line of metal and polymer ligation solutions demanded by surgeons around the world. Whether you prefer the classic feel of metal clips, or the modern flexibility of polymer, Teleflex® offers ligation products designed to suit your distinct preferences and case needs.

Weck® Hem-o-lok® Polymer Ligation System - Clips

Weck® Hem-o-lok® Polymer Locking Ligation System provides confidence created by a ligation system designed for clip security, locks onto the patient vessel. Weck® Hem-o-lok® is a cool ligation system; there's no chance of thermal spread to vital structures, a common concern of many surgeons when using energy-based ligation solutions.

Weck® Hem-o-lok® Polymer Ligation System - Applicators

The Weck® Hem-o-lok® Closure System's unique design and flexible hinge keep the clip firmly seated in applicator jaws. The clip's distinct tactile feedback confirms jaw seating and secure vessel placement.

Weck® Hem-o-lok® Polymer Ligation System - Automatic

The Auto Endo5® provides a 5mm automatic platform for cool secure ligation with 15 Medium-Large non-absorbable polymer clips. Weck® Hem-o-lok® Polymer Locking Ligation System provides confidence created by a ligation system designed for clip security, locks onto the patient vessel.

Horizon™ Metal Ligation System - Clips

The Horizon™ System was designed to meet your needs and is Weck's premium titanium ligation platform. The Horizon™ Line provides surgeons with a strong, secure clip coupled with an efficient, convenient easy-load cartridge system which is color-coded to match applicators.

Horizon™ Metal Ligation System - Applicators

Horizon™ Applicators are available in a wide variety of jaw types and applicator lengths. Applicator color coding matches the color of the ligating clip cartridge with which it is to be used.

Hemoclip® Metal Ligation System - Clips

Hemoclip® is synonymous with classic metal ligation. Weck provide two options under the Hemoclip® portfolio, friction-fit and easy load to meet all surgical preferences.

Hemoclip® Metal Ligation System - Applicators

Hemoclip® Applicators are available in a wide variety of jaw types and applicator lengths. Applicator color coding matches the color of the ligating clip cartridge with which it is to be used.
